

TECHNICAL REQUIREMENTS

| Remote training |

REMOTE TRAINING REQUIREMENTS:

The on-line remote sessions are organized via a web presentation service. What you will need:

- Internet connection
- A browser with installed web conferencing application – we prefer Hangouts, but it can also be your preferred one
- Accounts to web conferencing service – in case your company's internal services are used
- Audio – either VOIP through the remote presentation services (headphones needed), or by using an external voice conferencing service
- Session access codes will be distributed in the invitation e-mails

HARDWARE AND SOFTWARE SPECIFICATIONS FOR COURSES WITH VIRTUAL MACHINES:

- CPU equivalent to Core i5 with virtualization technology is recommended, minimum is Core i3 (or equivalent laptop processors)
- 4GB memory is recommended, minimum 2GB
- At least 20-40GB free space on the HDD (depending on the guest OS used)
- Display resolution minimum 1024x768 (the larger the better)
- Keyboard, mouse: any can be used as long as participants are familiar with them
- Virtualbox (VMWare support may also be possible, but is subject to compatibility of the virtual machine used for the particular training)

A pre-installed exercise environment in the form of desktop virtual machine will be distributed via a cloud drive for the participants at the start of the course.
